

Project Demo Planning

Date	15 March 2026
Team ID	XXX
Project Name	Smart Lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Team	Greet the audience and introduce team members and the project title, Smart Lender.	2	Neeli Likhith Madhav
2	Problem Statement	Explain the challenge of manual loan approval and the need for an ML-based eligibility prediction system.	2	Neeharika Veluvolu
3	Solution Overview	Describe the dataset, preprocessing steps, and the four ML models compared: Decision Tree, Random Forest, KNN and XGBoost.	3	Sarani Phanisree Nowbottu
4	Live Feature Demonstration	Demo the Flask web app: enter applicant details and show a real-time loan eligibility prediction using the XGBoost model.	4	Raunak Rai
5	Model Performance & Results	Showcase model comparison results, highlighting XGBoost's 94.7% training and 81.1% testing accuracy.	2	Kalluri Rishendra
6	Q&A Session	Address questions from evaluators and mentors.	2	All Team Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the team and briefly state the loan eligibility prediction problem.
2	Solution Overview	Explain the ML pipeline, models compared and the Flask-based architecture.
3	Live Feature Demonstration	Demonstrate the web app with applicant input and the real-time prediction output.
4	Q&A Session	Open the floor for questions from mentors and evaluators.
